

K U W A I T
**TANK INTEGRITY
& MAINTENANCE**
CONFERENCE

7 – 8 May 2012

ORGANIZED BY

www.spatialco.com/tank

INTRODUCTION

Kuwait Tank Integrity and Maintenance Conference will be organized during the period 7 -8 May 2012 as the only event fully dedicated to professionals working in the field of bulk liquid storage in the Kuwait, including crude oil, petroleum and chemicals as well as potable liquids, edible oils and fats. The conference will discuss all the major issues surrounding the regulation, maintenance, design and management of Bulk Liquid Storage Tanks. In this unique event, the only one of its kind in the country, we have brought together a compelling mix of tank inspectors, industrial tank users, designers and regulators to discuss health and safety, regulation and maintenance of storage tanks.

The conference will provide attendees an educational program full of new information on tank-related research, latest technologies such as:

- Latest management practices for aboveground storage tanks
- Technical & Maintenance Management
- Tank Maintenance & Refurbishment
- Tank Construction
- Leakage Detection
- Health, Safety & Environment
- Terminal Operations
- Emergency Response
- Integrating terminal logistics
- Terminal automation solutions
- Tank cleaning and desludging
- Developments in tank design
- Tank protection
- Enhancing tank performance
- Effective tank integrity and maintenance
- Storage terminal safety and emergency planning
- Metering and gauging
- Developments in inspection

This will offer a great opportunity for all professionals in related fields to meet and discuss new ideas, challenges and future directions.

CONFERENCE TOPICS

- Analysing the tank foundation and ground development for the construction of your storage tank
- Carrying out Risk based Inspection (RBI) on your Aboveground Storage Tanks (AST) for increased integrity
- Safe cleaning and de-sludging of tanks without man entry to reduce occurrence of accidents
- Evaluating current options for Non Destructive Testing (NDT) of tanks to reduce the tank's down time
- Determining inspection intervals based on the API 653 standards for continuous tank reliability
- Administering efficient petroleum storage tank fire protection

WHO SHOULD ATTEND

Primarily: CEOs, COOs, Presidents, Vice Presidents, Directors, General Managers, Senior Managers, Managers, Assistant Managers, Heads, Senior Decision Makers of:

- Terminal
- Operations
- Plant
- Commercial and Business Development
- Inspection
- Maintenance
- Tank Engineers
- EHS (Environment, Health & Safety)
- Head of Engineering Projects
- Logistics
- Supervisors
- Superintendent- Liquid Storage
- Environmental Engineers
- Supply Chain
- Procurement
- Distribution
- Pipeline
- Asset

From the full spectrum of industries including but not limited to:

- Oil and gas companies
- Chemical & petrochemical manufacturers and suppliers
- Independent terminal storage operators and distributors
- Oil and gas shipping and logistics companies
- Engineering, procurement and construction (EPC)
- Oil, chemical and petrochemicals trading companies
- Refiners
- Distributors Chemical & Petrochemical

WHY SHOULD YOU ATTEND?

- Grasping the current technologies and developments in the Bulk Liquid Storage (BLS) industry
- Exploring the latest methods in Non Destructive testing of tanks
- Deliberating the best and most cost efficient cleaning method for your tank
- Enhancing your tank operations via effective maintenance, inspection, repairing and cleaning strategies
- Putting in place efficient fire protection and fire fighting strategies

KUWAIT TANK INTEGRITY & MAINTENANCE CONFERENCE

7 - 8 May 2012

Registration Form

Conference Registration Fees:

K.D.

- Two days conference 7 & 8 May 500

First name : الأسم :

Organization : الجهة :

Department : الإدارة :

Mobile : الهاتف النقال :

Email : البريد الإلكتروني :

Signature : التوقيع :

Conference fees include admission to conference sessions, tea/coffee, lunch, registration materials .

PAYMENT DETAILS

- Payment through Cheque to be made in favour of Spatial Conferences and Exhibitions Company
- Payment through wire transfer to follow details as below :
- Payee : Spatial Conferences and Exhibitions Company
- Bank : Kuwait Finance House
- Account # 231010006607
- Swift Code : KFHOKWKW
- IBAN: KW69KFHO000000000231010006607

CANCELLATION AND SUBSTITUTION POLICY

In case registered participant is unable to attend due to some reason, she/he may send his substitute to attend the conference. She/he must inform the secretariat latest by 15 March 2012.

All registrations must be confirmed by **Fax +965 22491600**
